

Update Bulletin 2.9.5.0

Hello

Many updates of the past year have been requested by various users and have finally made their way to your runtime version. A brief summary of the highlights are shown below.

Edit Project	2
Defaults	2
Takeoff	3
Takeoff outline	3
Status Editor	4
Outline Reports	5

Edit Project

Defaults

Location nodes now allow color coding and its possible to tag newly added rooms by both enabling the feature and selecting a color. The colors are equivalent to planRoom hiltes.

Spec-Groups

Construction Finish Hardware

Default for new items

Work Order	Phase 1	<input type="button" value="v"/>	<input type="button" value="+"/>	UOM Product	Each	<input type="button" value="v"/>	<input type="button" value="+"/>
Revision	CCO 1	<input type="button" value="v"/>	<input type="button" value="+"/>	UOM Labor	Hours	<input type="button" value="v"/>	<input type="button" value="+"/>
Phase2	PhaseNew 1	<input type="button" value="v"/>	<input type="button" value="+"/>	UOM Material	Sqft.	<input type="button" value="v"/>	<input type="button" value="+"/>
Revision2	RevisionTWO	<input type="button" value="v"/>	<input type="button" value="+"/>	UOM Weight	Lbs	<input type="button" value="v"/>	<input type="button" value="+"/>
Outline Status	<input checked="" type="checkbox"/>	<input type="text" value="Yellow"/>					

New location will be initialized as:

Add Takeoff Outline Item

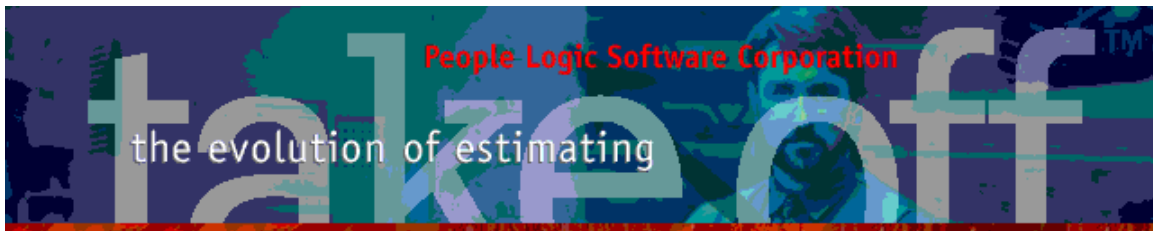

Level

Location

Status ☒ Enable

Drawing

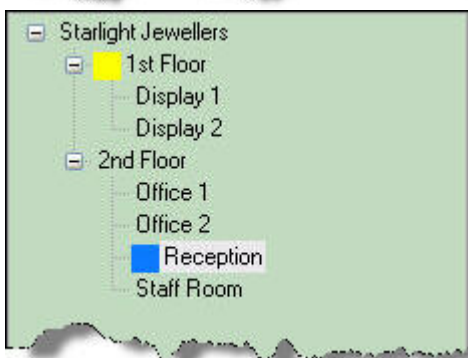

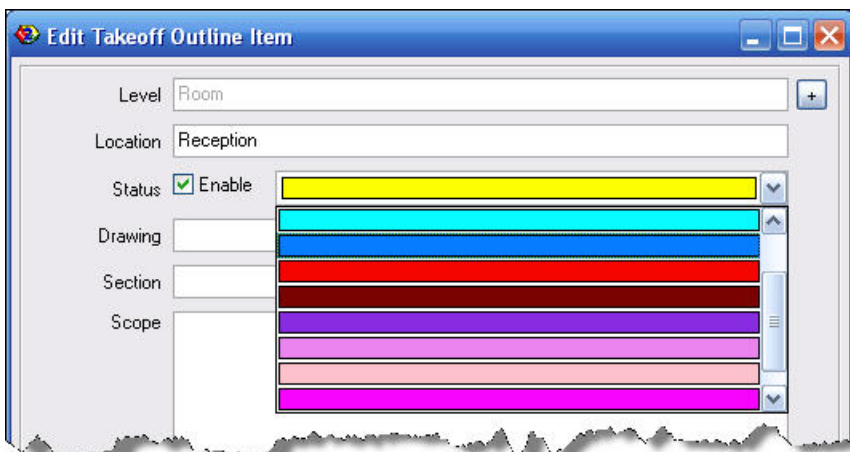

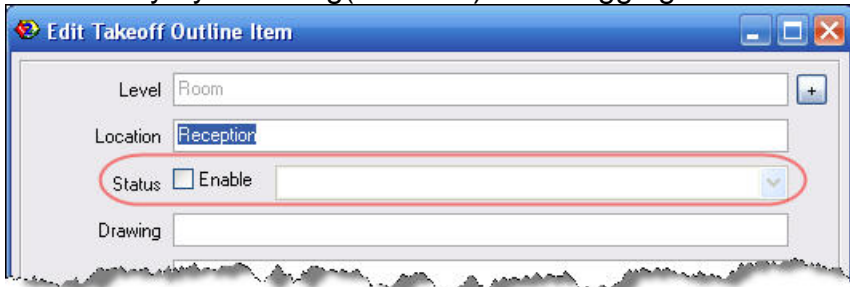

Section

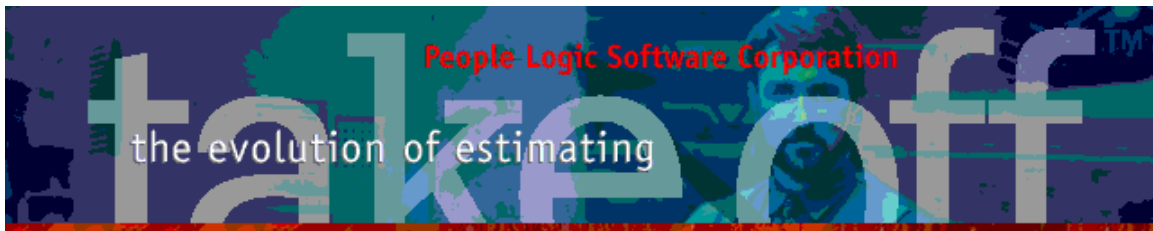

Takeoff

Takeoff outline

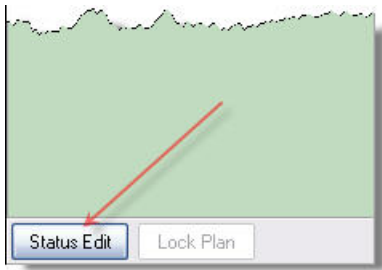

Existing locations may be color tagged by enabling (check) and selecting a color. Conversely by disabling (uncheck) color tagging will be removed.

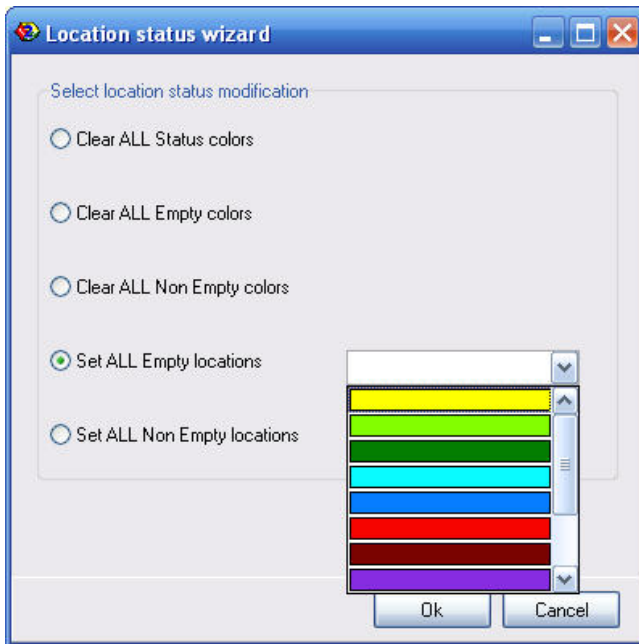

Status Editor

Clearing of ALL color tags or tagging special rooms may be done from the Status editor using the button located at the bottom of the location outline.

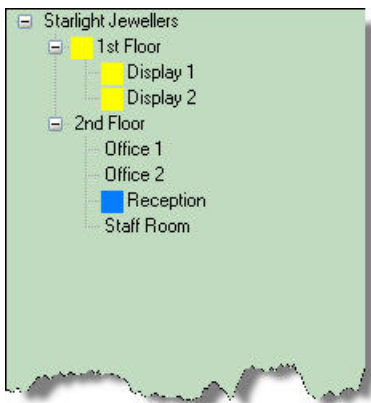

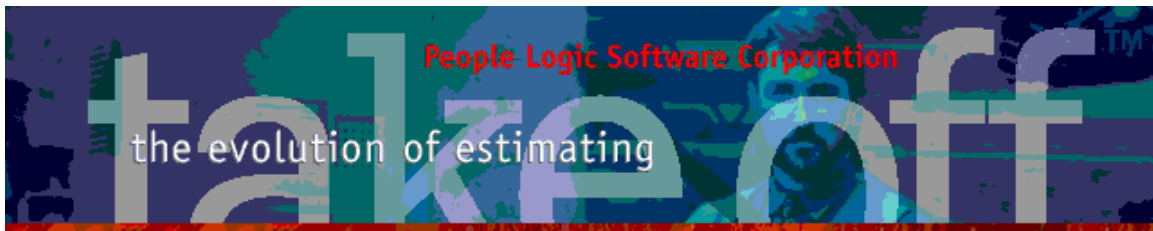

Specifically, locations either Empty or NonEmpty may be collectively tagged.

TIP – *By tagging empty rooms one may discover missed items. Later these tags may be cleared.*

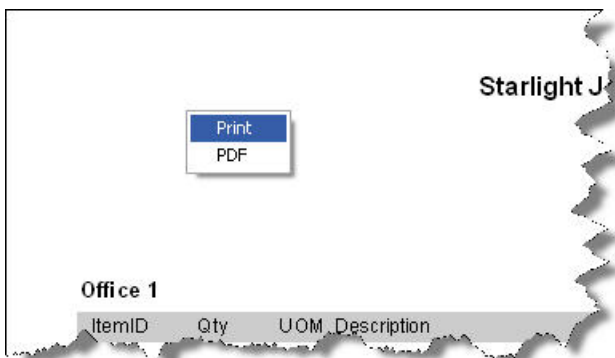

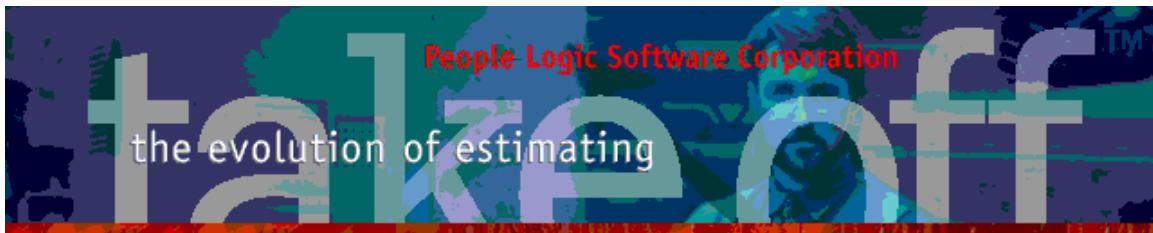

Note – *This action only operates on the current state of the outline. Any future item edits will not automatically affect status tag colors.*

Outline Reports

Previously, “Right click” reports from the takeoff section were handled by a Crystal preview dialog but are now provided in place by an alternate viewer. Printing and pdf output are still possible:

Look for the *Report* tab.
